Condong Catur, Depok, Sleman, Yogyakarta

I am a final semester student majoring in Information Systems, Amikom University, Yogyakarta. I have experience in building and maintaining web and mobile based applications using JavaScript, Golang, NextJS, and Flutter. I also have good knowledge of data structures, algorithms, and software engineering principles. During my studies, I have completed several projects involving web and mobile application development. I have good communication skills, and can work well in a team. I am very excited to learn and develop my skills further at this internship opportunity. I hope to utilize and expand my programming skills, as well as learn about methodologies and best practices in software engineering. I am dedicated to learning as much as possible during this internship and hope to make meaningful contributions to the team.
